

## Invernal Fury

### Rhapsody

Cold is the nordic winter while snow  
falls down mystical lights dance in the  
sky to the winds of night  
Invernal furt crossing my heart fill all  
my soul kiss with your wonderful songmm  
my land with love  
Rage of the winter mould the horizon  
cover the mountains forest and lakes  
Rage of the winter magical wonder  
invernal fury majestic force

Running on ice I observe the wonder of  
the landscape. I can receive all the magic  
that my coved winter gives  
Tears of winter falling on me freezing my  
dark side my heart must be white and pure  
like ice

Rage of the winter mould the horizon  
cover the mountains forest and lakes  
Rage of the winter magical wonder  
invernal fury majestic force
