

## Wings Of Destiny

### Rhapsody

Day has gone but I'm still here with you  
my sweet rose my green hills  
beloved sea, lakes and sky  
beloved mother earth

Silent land erase my thoughts  
I want to lose myself in you, all in you  
caress me and my soul  
while I close my eyes

On wings of destiny  
through virgin skies  
to far horizons I will fly

Dear peaceful land, dear mother earth  
caress my soul while I close my eyes

On wings of destiny  
through virgin skies  
to far horizons I will fly
