

Wings Of Destiny

Rhapsody

Day has gone but I'm still here with you
my sweet rose my green hills
beloved sea, lakes and sky
beloved mother earth

Silent land erase my thoughts
I want to lose myself in you, all in you
caress me and my soul
while I close my eyes

On wings of destiny
through virgin skies
to far horizons I will fly

Dear peaceful land, dear mother earth
caress my soul while I close my eyes

On wings of destiny
through virgin skies
to far horizons I will fly
