## Hover

## **Rhett Miller**

There's only one of you parked on a bridge Wondering if the radio is playing If you're crazy or there's voices in your head You've got a heart so big goes all the way to California

Where the water hits the land I hope your folks'll understand The city is dark but we're not scared Wrapped up in each other Making loving out of nothing like the air supplier said

You've got me so far gone I'm past Governor's Island
I'm past the Verrazano Bridge I'm past the Verrazano Bridge
You come and you glow and you hum and you hover
I cannot believe that you're my lover

You come and you glow and you hum and you hover
I cannot believe that you're my lover
I cannot believe
Later in a room picture of a girl

Doesn't do her justice what it does is make you realize You ought to be with her I'm talking 'bout right now I mean this instant When the hip'll meet the hand I hope your folks'll understand

You come and you glow and you hum and you hover I cannot believe that you're my lover You come and you glow and you hum and you hover

I cannot believe that you're my lover I cannot believe that you're my lover I cannot believe that you're my lover

You're my lover You're my lover You're my lover
