

# I'm With Her

Rhett Miller

This is a girl  
On a different planet  
In a constellation faraway  
We are in love  
And you can't deny

I'm with her  
Sha-la-la-la  
I'm with her  
Sha-la-la-la

Livin alone  
Livin all alone in a black hole I call Hollywood  
Looking for love, that I could not find  
I had a dream  
That she would orbit around me  
Her heavenly body hovering  
We were in love  
And I closed my eyes  
Now

I'm with her  
Sha-la-la-la  
I'm with her  
Sha-la-la-la

I was underground  
I found a whole new world to put my troubles in  
You lived miles above the earth  
Until you came down to bring me home again

Now I'm with her  
Sha-la-la-la  
I'm with her  
Sha-la-la-la

We will be wed  
And we will procreate  
And we will examine life on another plane  
And we are in love, with the big blue sky

I'm with her  
Sha-la-la-la  
I'm with her  
Sha-la-la-la
