Rhino Bucket

High tide, no time My ship's sinking and I don't know why Too far, last call They caught me praying in the bathroom stall Low lights, high ceiling There's a certain pain that I like feeling Little girls, older women It doesn't matter when the room is spinning We go live like a loaded gun Yeah, yeah, yeah We go live like the settin sun We're going down tonight We're going down tonight South side, too fine I don't need a glass to drink my wine Sunrise, sun sets The meter's running but I couldn't care less Loose change, loose ladies Twenty dollars make a no go maybe Took a fall prison walls This fuckin' place has the wrong kind of bars We go live like a loaded gun Yeah, yeah, yeah We go live like the settin sun We're going down tonight We're going down tonight...
