

# One Night Stand

Rhino Bucket

Don't need no sympathy  
Don't need no charity  
Don't need no helping hand  
All I need is a  
Rock N' Roll band  
Didn't light your fire baby  
Didn't tell you lies  
Didn't say I wanted you  
But you never said goodbye  
One more, one night stand  
One more, one night stand  
Don't see your point of view  
Don't see much point in you  
Don't like the games you play  
All I want to do is get away  
Bridge  
One more, one night stand  
One more, one night stand  
I didn't light your fire  
I didn't tell you to stay  
Didn't say I wanted you  
So stay the fuck away  
Don't need sympathy  
Don't need charity  
Just one more  
One night stand  
One more, just give me one more  
One night stand  
One more, I just want one more  
One night stand  
Don't need sympathy  
One night stand  
Don't need no charity  
One night stand  
Just give me one more  
One night stand  
One more, one night stand  
One more, one night stand
