

Darker Side

Rhodes

I'm parting ways, part of me
Rain, my darkness
Why does it break my heart

Pride suddenly over my head
You're my dark
Why does it break my heart

Sometimes I hear your voice
I'm overcome

Oh my darker side
I'll find your light
I know you better than that
I'll carry the weight, I'll carry the weight
Until the moment I break

Stay down, you're safe now in hiding
Face down, your pale heart is lightning

Sometimes I hear your voice
I'm overcome

Oh, my darker side,
I'll find your light
I know you better than that
I'll carry the weight, I'll carry the weight
Until the moment I break

Oh, my darker side
I'll find your light
I know you better than that
I'll carry the weight, I'll carry the weight
Until the moment I break

I'm parting ways, part of me
Rain, my darkness
Why does it break my heart

Oh, my darker side,
I'll find your light
I know you better than that
I'll carry the weight, I'll carry the weight
Until the moment I break
