

Raise Your Love

Rhodes

I was just a young child's mind then
Always listening
I don't wanna learn your choices now
Too young to begin

It's always on my mind now
The world I adore
Caught up in a lie now
It feels like a war

Feels like war
Raise your love
Raise your love
Feels like storm
Raise your love
Raise your love

Baby, I'm the sole survivor now
You're the one who died
I can keep a secret safe for a while
Maybe I'm a liar

It's always on my mind now
The world I adore
Caught up in a lie now
It feels like a war

Feels like war
Raise your love
Raise your love
Feels like storm
Raise your love
Raise your love

Feels like war
Raise your love
Raise your love
Feels like storm
Raise your love
Raise your love□
