Breeding Sickness

Ribspreader

From cathedral spires
We rull our filthy hordes
Sickening wolves in sheepsclothes
Come to mass and give
Your souls and flesh
This is rape for a cause

Kneel for me As I breed my sickness in you

Prey on the innocent This is our agenda Defiling the young to make them into us Come to mass and give Give your soul and flesh This is rape for a cause

Congregation of the sick Congregation of the foul

Spawning the soulless To feed our needs Feating the weak to quench our hunger

Congregation of the sick Congregation of the foul

Kneel for me As I breed my sickness in you
