

The Skeletal Empire

Ribspreader

The infestation of war
Has come to fester this land
Running scared - Running scarred
No escape from hell of war

Burning through the ashes of the already dead -
The skeletal empire
Crawling with a gun aimed at your head -
Make them forever dead!

This morbid coil is boiling
Boiling with the sufferers of hate
Engaged in ashes of delusion
To bring empires doomed to fail

Burning through the ashes of the already dead -
The skeletal empire
Crawling with a gun aimed at your head -
Make them forever dead!

The infestation of war
Has come to fester this land
Running scared - running scarred
No escape from hell of war

Yeah!
