

Bigger Than Life

Rich Gang

[Verse 1: Chris Brown]

Look around, is this where you wanna be? (Yeah, YMCMB)
We don't gotta play around (no, no, no, no)
And when the sun comes up we gonna be alright
Speak up on it baby we gonna be alright
I want you to know this is big, I'm bigger than life, bigger than life
(Flashy life style)
Ooooh when the sun goes down we gonna be alright
This is we, I'm bigger than life

[Verse 2: Tyga]

Uh, The city love me every night
And you're waving to the fans it ain't hard to decide
She know we fly, she pick a flight in no time
I'll be by my own business, why you busy minding mine?
You was on my level we both came from the ghetto
And later were separated, we hate it, I'm glad you made it
When your mountain top they say there is no where to go
But now I'll be chillin' just look around
Perpendicular momma be straight forever, her crib about an hour
Now she out of town
Predicted it be better we change we change the game like quarters
Two dimes together they high five until whatever
I can mention your name but I rather keep it clever
YMCMB I tell ya every letter
She just wanna chill with a star feel
Special no stressing no pressure, I'll bless you

[Hook: Chris Brown]
