

Keys To The World

Richard Ashcroft

Institutions, you run through them
Oh, from the age of five
And no one loves you
Cares if you lived or you died

Here we go again
In your room, your idle pleasures
The sinking sands fell through the net
No one to catch them

Here we go again
In your room, your idle pleasures
The sinking sands
Perhaps I could make it better

I've got the keys the to world, yeah
Oh, mixed up world
I've got the keys the to world, yeah
Oh, suicidal world
I've got the keys the to world, yeah
Oh, mixed up world
I've got the keys the to world, yeah
Whatcha gonna do when we get them?
When we get them?

Confrontations, you expect them
Oh, from someone you never loved
And there's no point in fighting
The truth is they'll never return

Here we go again
In your room, your idle pleasures
The sinking sands, you fell through the net
No one to catch you

Here we go again
In your room, your idle pleasures
The sinking sands
Perhaps I could make it better

I've got the keys to the world, yeah
Oh, mixed up world
I've got the keys to the world, yeah
Whatcha gonna do when we get them?
I've got the keys to the world, yeah
Oh, suicidal world
I've got the keys to the world, yeah
Whatcha gonna do when we get them?
