Leave Me High

Richard Ashcroft

leave me high leave me looking leave me low leave me warm no love can fulfil like this love that you give leave me high leave me looking over mountains in the heavens no love can fulfil like this love that you give

wasted moments come together like a ball on a string your love take me higher realise everything take those chains from your heart and soul and take those chains from your heart and soul

take those chains from your heart and soul and take those chains from your heart and soul yeah like a slow train and take those chains from your heart and soul yeah like a slow train and take those chains from your heart and soul yeah like a slow train and take those chains from your heart and soul and take those chains from your heart and soul through the mountains over heavens through the mountains over heavens leave me high leave me looking
