

Music Is Power

Richard Ashcroft

Music is power, let it flow through your mind
Your just like a flower, yeah in the deep sunshine

Are you invited, to the party of life?
Well now you've decided, do you live till you die?

These are wild wild wild days we live in
Yes I know sometimes you all wanna give in
These are strange strange vein days of living
Yeah I know sometimes you all wanna give in

Don't give up, oh no, alright
Let the melody flow, all night, all night

Cause Music is power, its easing your soul
Rockin' like a cradle, yeah it won't let you go

If the melody's timeless, oh it won't let you down
You can feel the air moving, submit to the sound...

In these wild wild wild days you live in
Yes I know sometimes you all wanna give in
These are strange strange vein days of living
I know sometimes you all wanna give in

Don't give up, oh no, alright
Let the melody flow, all night, all night

After all we go through, oh being in this crowd
Backdays good fortune, yeah all things you'll find

Cause Music is a mad drug, unwinding your head
Music is a question, to things unsaid

These wild wild wild days you live in
Yeah I know sometimes you all wanna give in
These are strange strange vein days of living
I know sometimes that you just don't fit in

Don't give in, don't give up, don't pack it up, stop cracking u
p
Let the song, carry you on and keep you strong

Don't wanna control ya (ooooh oohh)
Cause Music is power, submit to the sound
