

# You On My Mind In My Sleep

Richard Ashcroft

1. You ain't ever seen  
The way to find your dream  
Forget what's within within  
Cos who you've been you've been

R: If all we lose is the skin  
I'm pulling you under within  
We're gonna make this life together  
The symptoms are too deep  
I got you on my mind in my sleep  
you on my mind in my sleep

2. Do you know how hard I'll try  
To lose this foolish pride  
Can you take me as I am  
Can you understand me I'm changing now

R: If all we lose is the skin...

I got you on my mind in my sleep  
Heavenly body
