

## Dark Road

Richard Hawley

It's a long dark road that I call my home  
It's a long dark road that I'm cursed to roam

These many nights I've been banished here  
My companion is the stars  
With a bed roll and a blanket  
And just the rocks to lay my bones

One day from the darkness I'll come rapping at your door  
And I'll never walk this road anymore

It's a long dark road that I call my home  
It's a long dark road that I'm cursed to roam

These many nights I've been banished here  
My companion is the stars  
With a bed roll and a blanket  
And just the rocks to lay my bones

One day from the darkness I'll come rapping at your door  
And I'll never walk this road anymore  
No, I'll never walk this road anymore  
No, I'll never leave this home anymore
