

Darlin' Wait For Me

Richard Hawley

Darling, wait for me, by your gate
In the evening light, ah I just can't wait
For I have to go, in the morning too soon
So honey don't you cry, I'll be back here soon.

So think of me, when you feel that moon
Oh it calls to me, as it calls to you

Darling wait for me, I'll be home then
When the autumn leaves, bring me back again
Darling wait for me, darling please wait
Till evening light, by your starlit gate

So think of me, when you feel that moon
Oh it calls to me, as it calls to you

That's all I ask of you, all I ask
Till I hold your hand, there'll be peace at last
Don't wait up till it's dark,
All those lonely hours that we're apart

Darling please
Darling please
Darling please
Darling please.
