

# Run For Me

Richard Hawley

Later here this morning, if the crowds hold back the rain  
I'll declare my intent to race again  
Baby I've done running  
I've cut myself a deal  
Gave myself a ladder, this time for real  
And I've got nothing on the inside left to charm, just  
look at me  
And I've got nothing to live up to and nothing to reveal  
Go on run for me  
Go on run for me  
Go on run for me because I can't take it back  
Gone the summer gone the past and now it's done  
Now it's done

The lane is laced with ashes  
My road is paved with fear  
I bathed myself in sweet grass to tame the years  
And I've got nothing on the inside left to charm, just  
look at me  
And I've got nothing to live up to and nothing to reveal  
Go on run for me  
Go on run for me  
Go on run for me because I can't take it back  
Gone the summer gone the past and now it's done  
Now it's done
