

Misty Eyes

Richard Lloyd

(Lloyd)

I just saw her walking down the street.
Everybody turned their heads cause she's so pretty
And they wonder just who she is going to meet
But me I had thought ahead
Misty Eyes. Don't you recognize me?
I know it's been a long time, but Baby don't you see?
I've got a vague, a very, very vague recollection
From somewhere in the distant past.
When you and I baby, we were playing in the back yard,
And your mother came out.
She's saying that you're going too far.
Doctor's the kind of game that you can't play until you're older.
I knew but I just tried to scold her.
We made a secret vow that we would get together again.
Here we are.
Misty Eyes. Don't you recognize me?
I know it's been a long time, long time, but Baby don't you see?
Misty Eyes. Don't you recognize me?
I know it's been a long time, long time, but Baby don't you see?
That I've been waiting for your love.
I know it's been a long time... long time.
You were sent to me from above.
