

All Over Me

Richard Marx

I'm sure there must have been a time
You did not consume my mind
But I still swear I don't remember

To see I'm not in all that deep
Through everything I know to keep from being
Ready to surrender

I see it's too late now
There's something in the way
And I don't know how
I can hear the reaper calling
This boy's already fallen

All I want is you all over me
All I need is you all over me
I heard you say if you left I'd be okay
All I want is you all over me

Look at me I'm acting like
Some pathetic little child who's dying
For your attention
I feel my legs but I can't run
Pretty soon I will become the victim
Of my own invention

And I can hear it now
There is nothing left to say
Such a desperate sound
As a memory ends up killing
Baby, it's not blood that's spilling

All I want is you all over me
All I need is you all over me
I heard you say if you left I'd be okay
All I want is you all over me

All I want is you all over me
All I need is you all over me
I heard you say if you left I'd be okay
All I want is you all over me
