

Miracle

Richard Marx

It's hard to see reason
When there's so little hope alive
This is the season
To put faith in innocent eyes

We're all thinking too much
We're so out of touch
We need to start over again
So just let it wander
'Cause you're never too old to pretend

Tell you, just a little miracle
Is all you need to believe
Just a little miracle
Is all you need to believe

It's not too late to wake up
Don't make no difference who you are
Just take off your make-up
And discover the child in your heart

Tell you, just a little miracle
Is all you need to believe
Just a little miracle
Is all you need to believe

We're all thinking too much
We're so out of touch
We need to start over again
So just let it wander
'Cause you're never too old to pretend

Tell you, just a little miracle
Is all you need to believe
Just a little miracle
Is all you need to believe
