

One More Time

Richard Marx

Nothing I must do, nowhere I should be
No one in my life to answer to but me
No more candlelights, no more purple skies
No one to be near as my heart slowly dies

If I could hold you one more time
Like in the days when you were mine
I'd look at you till I was blind
So you would stay

I'd say a prayer each time you smile
Cradle the moments like a child
I'd stop the world if only I
Could hold you one more time
Mmm

I've memorized your face
I know your touch by heart
Still lost in your embrace
I dream of where you are

If I could hold you one more time
Like in the days when you were mine
I'd look at you till I was blind
So you would stay

I'd say a prayer each time you smile
Cradle the moments like a child
I'd stop the world if only I
Could hold you one more time
Mmm
