

## One More Time

Richard Marx

Nothing I must do, nowhere I should be  
No one in my life to answer to but me  
No more candlelights, no more purple skies  
No one to be near as my heart slowly dies

If I could hold you one more time  
Like in the days when you were mine  
I'd look at you till I was blind  
So you would stay

I'd say a prayer each time you smile  
Cradle the moments like a child  
I'd stop the world if only I  
Could hold you one more time  
Mmm

I've memorized your face  
I know your touch by heart  
Still lost in your embrace  
I dream of where you are

If I could hold you one more time  
Like in the days when you were mine  
I'd look at you till I was blind  
So you would stay

I'd say a prayer each time you smile  
Cradle the moments like a child  
I'd stop the world if only I  
Could hold you one more time  
Mmm
