

One Thing Left

Richard Marx

My life is one big smile
As I cross off the things on my list
The splendor goes on for miles
I don't know what could be left to wish

I'm just living the dream
I do alright if you know what I mean

And I've closed the door and locked it tight
And turned off every single light
Another perfect day is all but through
Now me getting over you is the one thing left to do, yeah, yeah
, yeah

The whole world has gone insane
The paper says so every day
And I can always feel the rain
Even when the sun's in the way

Yeah, just living the dream
I wish my eyes could forget what they've seen

I've closed the door and locked it tight
And turned off every single light
And walked away just like you asked me to
Now me getting over you is the one thing left to do

Yeah, I know that it's me who's not well
But there's no one but you I can tell

As I close the door and lock it tight
And turn off every single light
And walk away just like you asked me to
But me getting over you is the one thing left to do, yeah, yeah
, yeah
Is the one thing left to do
