

A Little More

Richard Smallwood

turn your eyes from on this way
I have proved to live a dastardly day
I hid my face from the saints
and the angels who sing of your glory
what you had in mind.

through my weakness shine

shine, show me grace

Chorus

a little more than I can give

a little more than I deserve

unearth this holiness I can't even earn

it's a little more than I can give

a little more than I deserve

for all the sin that lives in me it took a nail to set me free

still, what I do I don't want to do and so goes the story

what you had in mind:

when we seek we'll find

shine, show me grace

Chorus

a little more than I can give

a little more than I deserve

unearth this holiness I can't earn

it's a little more than I can give

a little more than I deserve

Bridge

with all this motivation I still have a hesitation

deep in my soul, whoa-ho-ho-and

despite all my demanding

I still find you understanding

show me grace, show me grace I know

whoa-ho-ho-show me love

Chorus

a little more than I can give

a little more than I deserve

unearth this holiness I can't earn

it's a little more than I can give

a little more than I deserve
