

Don't Look At Me

Richard Smallwood

Don't look at me
If you're looking for perfection
Don't look at me
I will only let you down
I'll do my best to point you
In the right direction
But don't look at me
No, no, no
Don't look at me
Look at Him
Sometimes I have a fear
That you will see a mirror
And get the thought
That it's the main attraction
But all that you detect
It's just what I reflect
Of the object of my own affection
I'll lead you to the One I've found
He'll give you everything you need

It's understandable
To want a hero
But people can't meet all your expectations
Still some can teach you things
About the love He brings
Just know the source of life is in the Savior
I'll lead you to the One I've found
He'll give you everything you need

He's the One who lived a perfect life
He's the One who always gets it right
He's the One and only guiding light
Oh, yea
He's everything you want to be
He's the answer to your every need
If you follow Him then you will see
