

I Never Lied To You

Richard Smallwood

Said I never loved you, said I never did
That's what I believed, before I ever said it
Never wanna see your face, or speak to you again
Cause I can live without pain, I can handle my own sin

never lied to you, never lied to you, never lied to you

Until I lied to myself
Never lied to you, never lied to you, never lied to you
Until I lied to myself
Said there were no secrets, buried in the sand
Standing in the canyon, I dug with my own two hands
No needs to help me, alone I'm doin fine
I can live without love, I can manage my own sweet time

is there room in your heart to forgive me
Find it hard to forgive myself
For the lies that I find within me
Must be harder for someone else
All I can do is tell the truth I lied to you
To hide the truth from myself
