

Little Girl

Richard Smallwood

Sing a song about little girls for me, please
She was just 13 and I just don't think
That she ever seen her own beauty
And she didn't think she'd be anything
And that little girl, she used to me be

Little girl, little girl
Wonder are you listening
Little girl, little girl
Struggling with your confidence
Little girl, little girl
God made you so beautiful
Little girl, little girl
I just thought that you should know
Sometimes you feel like you don't fit in
'cause you don't look like
All your other friends
Got your own thing going on
Girl you are so unique you are just
That way that
God intended for you to be

Tell you what you should do
When you get up
In the morning look yourself in the
Mirror and say
I love me
Even with all of your flaws and all of your downfalls
Just be your best 'cause to him you
Already are
