

# A Bone Through Her Nose

Richard Thompson

Oh the drones on the corner don't look her in the eye  
when she comes out to play  
And three times now at the Club Chi-Chi they've turned  
her away  
Last week she was the belle of the ball but another  
week passes  
It's time to cast off crutches, scars and pebble  
glasses  
She's got everything a girl might need  
She's a tribal animal, yes indeed  
But she hasn't got a bone through her nose, through her  
nose  
Hasn't got a bone through her nose  
She hasn't got a bone through her nose, through her  
nose  
She hasn't got a bone through her nose  
Hasn't got a bone through her nose, through her nose  
She hasn't got a bone through her nose  
Oh she gets her suits from a personal friend, Coco the  
clown  
She got dustman's jacket, inside out, it's a party gown  
If it's bouffons, she's got bouffons, if it's tat she  
got tat  
She got hoochie coochie Gucci and a pom-pom hat  
She's got everything a girl might need  
She's a tribal animal, yes indeed  
But she hasn't got a bone through her nose, through her  
nose  
She hasn't got a bone through her nose  
She hasn't got a bone through her nose, through her  
nose  
She hasn't got a bone through her nose  
She hasn't got a bone through her nose, through her  
nose  
She hasn't got a bone through her nose  
No!  
Well, her ma writes cook books, she wrote one once, and  
it sold one or two  
Her pa's in the city, he's so witty, he calls it the  
zoo  
Her boyfriend plays in Scritti Politti, Aunt Sally's  
brown bread  
In a few more years she can marry some fool and knock  
it on the head  
She's got everything a girl might need  
She's a tribal animal, yes indeed  
But she hasn't got a bone through her nose, through her  
nose  
She hasn't got a bone through her nose  
She hasn't got a bone through her nose, through her  
nose  
She hasn't got a bone through her nose  
She hasn't got a bone through her nose, through her  
nose  
She hasn't got a bone through her nose  
She hasn't got a, Oh she hasn't got a, Oh
