

## Back Street Slide

Richard Thompson

Those backstreet women, watch what you say  
You turn your back and they slide away  
They run next door, they give it all away  
Doing the slide

The backstreet slide, the backstreet slide  
They're gonna get you, dead or alive  
Stab you in the back with a kitchen knife  
Doing the backstreet slide  
Do it all day, the backstreet slide

Gatemouth woman leaning on the fence  
She's got no teeth, she's got no sense  
You don't need much intelligence  
Doing the slide

The backstreet slide, the backstreet slide  
They're gonna get you, dead or alive  
Stab you in the back with a kitchen knife  
Doing the backstreet slide  
Do it all day, the backstreet slide

Slide over here, slide over there  
Spreading that scandal everywhere  
Stab you in the back and they just don't care  
Doing the slide

Now slander is a loving tongue  
They speak your name to everyone  
Never is a curse left unsung  
Doing the slide

The backstreet slide, the backstreet slide  
They're gonna get you, dead or alive  
Stab you in the back with a kitchen knife  
Doing the backstreet slide  
Do it all day, the backstreet slide

The backstreet slide, the backstreet slide  
They're gonna get you, dead or alive  
Stab you in the back with a kitchen knife  
Doing the backstreet slide  
Do it all day, the backstreet slide
