Rainbow Over The Hill

Richard Thompson

Rainbow over the hill Rainbow over the hill Rain clouds lifting Just when you think they never will

And I'll be on my way Up and down in a swamp all day And just when it broke my will There's a rainbow over the hill

Don't you worry your weary head About the fools and problems in your way If you could see beyond tomorrow You never would shed a tear today

Rainbow over the hill Rainbow over the hill New day breaking No time to be standing still

And further on down the road I'll reap what I have sown And just when I've had my fill There's a rainbow over the hill

Don't you worry your weary head About the fools and problems in your way If you could see beyond tomorrow You never would shed a tear today

Rainbow over the hill Rainbow over the hill Rain clouds lifting Just when you think they never will

And I'll be on my way Up and down in the swamp all day And just when I've had my fill There's a rainbow over the hill Rainbow over the hill Rainbow over the hill
