## **Shoot Out The Lights**

## **Richard Thompson**

In the dark who can see his face?
In the dark who can reach him?
He hides like a child
He hides like a child

Keeps his finger on the trigger He can't stand the day Shoot out the lights Shoot out the lights

Keep the blind down on the window
Keep the pain on the inside
Just watching the dark
Just watching the dark

He might laugh but you won't see him As he thunders through the night Shoot out the lights
Shoot out the lights

In the darkness the shadows move In the darkness the game is real Real as a gun Real as a gun

As he watches the streets of the city As he moves through the night Shoot out the lights Shoot out the lights
