

## Black Cloud

Richard Wright

So please look at me  
How I've missed you  
How I've missed love  
My hand is here

If you still know me  
Then touch my fingertips

I see the waters move above your face  
I feel your naked hand  
Please don't let it go again

Your sacrifice  
That meant so much  
Left us with no place to stand  
Please let me touch  
And let me near  
Let me near
