

# Beat Of My Heart

Richgirl

Don't run away with my love  
That would hurt me too much  
Don't wanna lay in the under someone else  
I wanna be with you  
'Cause baby I need your touch  
Don't wanna hang out in clouds  
Can you hear me I'm crying out the hell

I know you will stay  
If you took the time and listen to the beat of my heart  
It's calling your name can you hear it baby  
Listen to the beat of my heart  
It's crying out: don't go, please stay right here  
I need you baby  
Don't go, please stay right here  
Listen to the beat of my heart

Don't try to walk out my life  
Without you I just stay right  
And baby I'm willing to fight you for your love  
I'm telling you the truth  
It will be so many cold days and nights  
I'll be squeezing my pillow tight  
Can you hear me I'm crying out the help

I know you will stay  
If you took the time and listen to the beat of my heart  
It's calling your name can you hear it baby  
Listen to the beat of my heart  
I'm crying out: don't go, please stay right here  
I need you baby  
Don't go, please stay right here  
Listen to the beat of my heart

I don't let you run away  
I go crazy if you leave,  
Do anything to make you stay  
'Cause you mean enough to me  
Want you to walk in my life  
Boy I'm begging on my knees  
Willing to put up a fight  
My love just won't let you free  
I won't let it free, I won't let it free , I won't let  
it free  
My love just won't let you free  
I won't let it free, I won't let it free , I won't let  
it free  
Listen to my heart

I know you will stay  
If you took the time and listen to the beat of my heart  
It's calling your name can you hear it baby  
Listen to the beat of my heart  
I'm crying out: don't go, please stay right here  
I need you baby  
Don't go, please stay right here  
Listen to the beat of my heart
