

# Putting Out The Vibration (And Hoping It Comes Home)

Richie Havens

Brighter days ahead  
Step out from the shade  
Brighter days ahead  
See what you have made  
Of yourselves  
Of your lives

Brighter days ahead  
In these present eyes  
Reach out from the haze  
In these present eyes  
See what you have made  
Of these days  
Full of hate  
Full of strife

Brighter days ahead  
See the morning from your knees  
Peace at noontime saves the sun  
See the evening if you please  
Love and peace and life are one

Brighter days ahead  
Let all men realize  
Brighter days ahead  
That this truth they prize  
In their eyes  
In their eyes  
Brighter days ahead
