

# Lie To Me

Richie Kotzen

You know I feel like  
I'm leaving hanging by a thread  
Last night I believed in everything you said  
I don't sweat on the details because the pictures in my head  
I just need to believe in everything you said

So come on and lie to me lie to me baby  
Tell me what I wanna hear  
You know anything's believable if we both say so  
I want you to lie to me lie to me baby  
Show me what I wanna feel  
You know anything is possible when you can't say no

Lie to me lie to me  
Tell me what  
I wanna hear  
Lie to me lie to me  
I'll believe it

I'm so caught up you got me hooked again  
I cant stop thinking about it I can't let it end  
I know I might pay for it later but I know the cost  
I can't blame you no, or thank you, because I've already lost

I just want you to lie to me lie to me baby  
Tell me what I wanna hear  
Anything's believable if we both say so i want you to lie to me lie t  
o me baby  
So we can feel how we wanna feel You  
know anything is possible when you can't say no

It's not about the future or anything we did before  
It's nothing that we can control  
It's just letting go

I want you to lie to me lie to me baby  
Tell me what I wanna hear  
You know everything's believable if we both say so  
I want you to lie to me lie to me baby  
Feel how you wanna feel  
Anything is possible when you cant say no  
Don't say no  
Lie to me lie to me tell me what I wanna hear  
Lie to me lie to me baby feel how you wanna feel  
Lie to me lie to me baby I just wanna believe  
Anything is possible when you can't say no  
Don't say no
