

All That Really Matters

Richie Sambora

When I look at you
You're beautiful
There comes a time in someones life
When you find the things that matter

And every time we touch
The love runs deep
We realize its ours to keep
And thats all that really matters

You'll always be my sweet addiction
In this life my saving grace
You're all that really matters
You know its true
Ain't no me without you

When you're in the dark
Baby don't dispair
I'm just a spark away I will be there
And thats all that really matters

You'll always be my sweet addiction
In this life my saving grace
You're all that really matters
You know its true
Ain't no me without you

Well share our lives together
Yes our flame burns forever
And at the final curtain call
We can say we did it all

(Solo)

You'll always be my sweet addiction
In this life my saving grace
You're all that really matters
You know its true
Ain't no me without you

And when we turn to dust
And we fly away
There'll be a light still burning bright
And thats all that really matters
