

# All That Really Matters

Richie Sambora

When I look at you  
You're beautiful  
There comes a time in someones life  
When you find the things that matter

And every time we touch  
The love runs deep  
We realize its ours to keep  
And thats all that really matters

You'll always be my sweet addiction  
In this life my saving grace  
You're all that really matters  
You know its true  
Ain't no me without you

When you're in the dark  
Baby don't despair  
I'm just a spark away I will be there  
And thats all that really matters

You'll always be my sweet addiction  
In this life my saving grace  
You're all that really matters  
You know its true  
Ain't no me without you

Well share our lives together  
Yes our flame burns forever  
And at the final curtain call  
We can say we did it all

(Solo)

You'll always be my sweet addiction  
In this life my saving grace  
You're all that really matters  
You know its true  
Ain't no me without you

And when we turn to dust  
And we fly away  
There'll be a light still burning bright  
And thats all that really matters
