

## Burn that Candle Down

Richie Sambora

Hard time living here is out of clear  
Times and reasons where you never had  
Ain't no shame in starting up right now  
Smoke confuses burn that candle down

Stupefy and keep flavor fading out  
Then burn that candle down  
I saw the night moon rising, and not exactly how  
Then burn that candle down

Mister hailing I will slap your wrist  
Here's that chance to check me out your list  
There's no time for thinking twice right now  
Smoke confuses burn that candle down

Stupefy and keep flavor fading out  
Then burn that candle down  
I saw the night moon rising, and not exactly how  
Then burn that candle down
