

Deeper Still

Rick James

You know me
Better than I know myself
And you want me
More than anybody else
And you love me
You've been loving me
For years
And we made it
Even through
The tears and fears
And I'm here tonight
I want to testify
It was you and me
Now it's you and I
And I'm positive
We'll keep it going strong
Because I'm loving you
And girl it can't be wrong

Course:

RJ: I love you Deeper Still
A little deeper baby , just a little bit deeper
RJ: You know I always will, ohhh baby
A little deeper baby , just a little bit deeper
RJ: I love you Deeper Still
A little deeper baby , just a little bit deeper
RJ: and I always will baby. Baby

I feel good
You make me feel good
All the time
But you know this
And that's the reason I made you mine
I wanna thank you
For every day girl that I live
For giving me joy
And you got so much more to give
So girl, I'm here to say
I keep on prayin
And hope that
Every day
We keep on living
My soul is satisfied
Because I'm with you
And I wont deny
Or ever quit you
