It's magnetic, start lickin' your lips and I'm sympathetic
Doin' it well like LL, but I can't sweat it
I know you llike the green eyes with the creamy thighs
But I'm the butterscotch drop quick to make you ride
'Til you hit the roof, do you want a scoop
Of the mocha girl, got you open like a parachute all night
Caramel delight, we gon' do it right
In the mist, with a twist, give it to you like this

Do it to me good
Hey there, chocolate girl
Do it to me good
With your mango smile
Do it to me good
Sweet as brown sugar
Do it to me good
Can I taste you for a while?
Do it to me good
Say I can play
Do it to me good
In your sweet milky way
Do it to me good
Come on, sapphire
It's you that I desire
Do it to me good
Honeysuckle sweet
Do it to me good
You're a chocolate treat
Do it to me good
I'd like to lick you like a lollipop
Do it to me good
You're good enough to eat
Do it to me good
Is it true what they say
Once you've tasted the black you will never go back
Do it to me good
I believe it's true
Ever since the first day I laid with you

You're my favorite flava
Every time I get with you, girl
You're my favorite flava
Now there I go, there I go, there I go, there I go
You're my favorite flava
The blacker the berry the sweeter the juice
You're my favorite flava
There I go, there I go, there I go, there I go

Do it to me good
Hey there, light and bright
Do it to me good
What I wouldn't give
Do it to me good
Just to spend the night
Do it to me good
Just to hold you tight
Do it to me good

High yellow sista
Do it to me good
I could see you there
Do it to me good
You too are special
Yes, you too are rare
Do it to me good
You're like a good wine
Do it to me good
A sweet grape from the vine
Do it to me good
I will savor your sweetness
Do it to me good
Each and every time
Do it to me good
It's so real how I feel
There's no one girl who can compare
Do it to me good
To the light and bright redbone standing over there

You're my favorite flava
Every time I get with you, girl
You're my favorite flava
Now there I go, there I go, there I go, there I go
You're my favorite flava
The blacker the berry the sweeter the juice
You're my favorite flava
There I go, there I go, there I go, there I go

Favorite flava
Every time I get with you, baby
You're my favorite flava
I want to lick you like a lollipop
You're my favorite flava
The blacker the berry the sweeter the juice
You're my favorite flava
There I go, there I go, there I go, there I go

Grab your taste tester, I suggest ya
Come close, we gon' do the most on this coast
Some be real feminine, sprinkle like cinnamon
Something you wanna savor, 5 Footaz got that flava
Ice cream pecan, bronze, sweet like my mom
Unique in many ways, we come in different shade
Chocolate chips, they dip; rocky roads, use control
Hold you down, quick to wrap you up like a Tootsie Roll
It's beautiful to see my sistas in the sunshine
Divine, line for line, give it to you one time
The maple donuts'll make you go nuts
Sticky like toffee, steamy like coffee
Saucy, and right the whole clique, I'ma do it to ya, Rick
Assorted, won't you take the first pick
(Yeah, yeah, yeah, yeah, yeah)
