

# Fool on the Street

Rick James

Oh, baby...

Love, came quite by surprise  
Hit me right between my eyes  
And made me realize

You and I  
We were born right from the streets  
We both know how to stay alive  
We both know how to shuck and jive  
Didn't we, baby?

'Twas such a cold, cold blow  
That made you try to knock my poor heart down  
I was man enough to stand my ground  
Even though you didn't want me around  
I was a fool baby

Now you come, right back on the scene  
Tryin' run that same game on me  
Stop playin' with my heart  
Just leave it before you start

You can't no more my baby  
I won't be fooled no more (I won't be fooled)  
You can't no more my baby  
I won't be fooled no more (I won't be fooled)

I was a fool baby  
But I won't be a fool no more

Love, the day you walked out on me I died  
For days I sat around and cried  
I even thought of taking my life  
I was a fool, yeah

As time went on  
I grew stronger within myself  
I wrote a song and changed my name  
From the streets I went to wealth and fame, oh yeah

Now this fool on the street  
That you knew and loved a long time ago  
He's died and changed his name  
Somebody else is taking his place  
And he doesn't know your face

Now you come right back on the scene  
Tryin' run that same game on me  
Stop playin' with my heart  
Just leave before you start

You can't no more my baby  
I won't be fooled no more (I won't be fooled)  
You can't no more my baby  
I won't be fooled no more (I won't be fooled)

You may fooled me, but you'll never fool me anymore  
I was a fool for you baby!  
You may fooled me, but you'll never fool me anymore  
I was fool on the street when we met  
You may fooled me, but you'll never fool me anymore  
Enough of your games for me You may fooled me, but you'll never fool me anymore  
You was gamin' on me, baby

Oh no, oh no, oh no, oh no  
Oh no, oh no, oh no, oh no

Didn't you know he was only a fool?

I was a fool for you baby, a long time ago  
I was a big fool baby, but I won't be no more

Fool for you baby, a long time ago  
Fool for you baby

Big fool, baby  
I was a stupid man and fool

(Aah...)

When you are on the street  
And someone you meet  
Don't be foolin' me, don't be foolin' me

Jeez, oh man, it's cold!

Hey, my man, is that you?

Hey... oh hi, hey man!

Listen, I'm going to town, man, you want a ride?

Oh man, give me a ride, yeah  
Wow. Turn on the heat, and the radio, too

What's that you smokin'?

Oh man, listen to this, I'm ready to bustin' out now

Hey listen, um, uh, I understand, that the Teens gonna be in town tonight, at the Disco Center

Let's go check out at the disco, man! Let's go, I'm down, and bust on out on the funk

Sho nuff, sho nuff, yeah

Smoke some of this

Yeah yeah, my man...
