

# Not Alone

Rick James

As we sail the coast of Africa  
Lying on the deck drinking champagne, and passing time  
While the seagulls seem to fill the air  
And the dolphins seem to be aware you are mine  
Trees blew in the island breeze, and sing a song of harmony  
For you and me, yeah  
Lying down upon the sand  
Your gentle heart was in my hand, forever and ever and ever

I'm feeling so good, just like the sunshine in the sky  
And you look so brown, girl, it makes me want to cry  
Your body speaks to me, in a language all its own  
I feel the wind blow, and I know I'm not alone, not alone

Come on, mamacita, estas entera, mucho caliente  
I'm not alone  
Come on, mamacita, estas entera, mucho caliente  
I'm not alone  
Come on, mamacita, estas entera, mucho caliente  
I'm not alone  
Come on, mamacita, estas entera

As we sail the coast of Africa  
We were laying naked in the sun, and feeling fine  
You were singing me a Spanish song  
And we laughed about it all night long, passing time

Trees blew in the island breeze  
And sang a song of harmony for you and me, yeah, yeah  
Lying down upon the sand  
Your gentle heart was in my hand, forever and ever and ever  
I'm feeling so good, just like the sunshine in the sky  
And you look so brown, girl, it makes me want to cry  
Your body speaks to me, in a language all its own  
I feel the wind blow, and I know I'm not alone, not alone

Come on, mamacita, estas entera, mucho caliente  
I'm not alone  
Come on, mamacita, estas entera, mucho caliente  
I'm not alone  
Come on, mamacita, estas entera, mucho caliente  
I'm not alone  
Come on, mamacita, estas entera
