

Soul Sista

Rick James

Girl, have I told you how I really feel?
And if I showed you, would you be for real?
And take these words of love from my heart
And hold them forever, baby
I'm not ashamed to give you anything
Even this song of love to you I sing
Girl, you're the queen of my soul
The queen of my heart

You are my soul sista, sista
Ooh baby, you're my soul, sista
You are my soul sista, sista
Ooh baby, you're my soul, sista

Could this be destiny or just our fate?
Girl, all I really know is I can't wait (I can't wait)
To lay your brown skin body down
And taste all your sweetness, baby
Ooh baby, come like the raging waves upon the sand
And take me to your never, never, never, neverland
Girl, I long to get so deep into your soul

You are my soul sista, sista
Ooh baby, you're my soul, sista
You are my soul sista, sista
Ooh baby, you're my soul, sista
You are my soul sista, sista
Ooh baby, you're my soul, sista

Golden girl, with ebony eyes
I have searched my life for you
Now you're here, so lay by my side
It's my fate that you're my soulmate

You are my soul sista, sista
Ooh baby, you're my soul, sista
You are my soul sista, sista
Ooh baby, you're my soul, sista
