## **Summer Love**

Winter's gone And like the seasons I'm changing for reasons I can feel your summer love comin' on So warm and hot girl I beg you don't stop Could this be love that I'm going through I can feel it I can feel it Could this be love Summer love and you Sitting in the park Playing you love songs on my guitar While the sun shines on your face like an angel And with your eyes touching mine say it's time This must be love that I'm goin' through I can feel it, I can feel it This must be love Summer love and you Could this be love I'm goin' through Warm as the sun soft as the mornin' dew
