

# Church On Fire

Rick Price

The room was dark  
The moon was shining bright  
I held you and we kissed goodnight  
Then through the window  
That ungodly light  
Was I asleep were you awake  
Did I arrive just too late  
Is there something you're not saying  
I should know

Tell me who set this church on fire  
Why is everything we love  
Burning to the ground  
Tell me who set this church on fire  
Is everything that's sacred fallin' down

The saints and sinners in the stained glass  
They whisper to me as I pass  
There's nothing in this world that lasts  
Did someone toss a match away  
A careless gesture, who can say

Tell me who set this church on fire  
Why is everything we love  
Burning to the ground  
Tell me who set this church on fire  
Is everything that's sacred fallin' down

A shout came from the second floor  
And someone ran out the back door  
Could he have been the parish priest  
A worshipper trapped in the heat  
Or was he the one who set the flames to burn

Tell me who set this church on fire  
Why is everything we love  
Burning to the ground  
Tell me who set this church on fire  
Is everything that's sacred fallin' down
