

# Life Without You

Rick Price

Life is short and so precious  
There's so little time  
You'd think I could tell  
The one that I love  
What's on my mind  
But the words don't come to me naturally  
And the moments keep passing me by

And you say that you need me  
And it just sounds so easy  
Comin' from you  
And it's so hard to say  
But baby in my own way  
I love you too  
And I can't imagine life without you

Nights are long, here beside you  
When I'm wide awake  
As long as you sleep  
I can say what I want  
'Cause my heart is brave  
I wish you could hear the things I've said  
Once you've opened your eyes

And you say that you need me  
And it just sounds so easy  
Comin' from you  
And it's so hard to say  
But baby in my own way  
I love you too  
And I can't imagine life without you

Oh, oh, what can I say  
'Cause I'm trying to find  
Some way  
'Cause I need ya  
And I want ya  
Every night and day

And you say that you need me  
And it just sounds so easy  
Comin' from you  
And it's so hard to say  
But baby in my own way  
I love you too  
And I can't imagine life without you
