

## Free Mason

Rick Ross

This is for the soldiers the see the sun  
At midnight, ya dig  
Let me slow down (it's so incredible)

I go to the grave before I be a bitch nigga  
Better behave, you're dealin' with some rich niggas  
We the lost symbols, speak in cryptic codes  
Ancient wisdom, valuable like gifts of gold  
I embark on life, my path is all math  
I understand the codes these hackers can't crack  
I understand that folks expect me to fold  
Community control to violate parole  
I won't fail, but a lot of men will  
I'm iconic in the field, like Solomon's Seal  
Uh, it's just an intro  
Allow my flow time to sink into the temple  
Free Mason, freelancer, free agents, we faster  
Big contracts, big contractors  
Built pyramids, period we masters  
No caterpillars, it was just a lot of niggas  
A lot of great thinkers and a lot of great inventors  
All white mansion, I'm the child of God  
All black diamonds, times were hard  
New Rolls Royce  
Guess you made it, nigga  
All white neighborhoods, you they favorite nigga  
My top back like J.F.K.  
They wanna push my top back like J.F.K.  
So, so I J.F.K.  
Join Forces with the kings and we ate all day  
Right now I could rewrite history  
I stopped writin so fuck it, I'll do it mentally

I go to the grave before I be a bitch nigga  
Better behave, you're dealin' with some rich niggas  
Started in the ghetto, now we worldwide  
Multiplying and I pray to God we never die

Niggas couldn't do nothing with me they put the devil on me  
I would have preferred if niggas would squeeze the metal on me  
Rumors of Lucifer, I don't know who to trust  
Whole world want my demise, turn my music up  
Here me clearly  
If y'all niggas fear me, just say y'all fear me  
Fuck all these fairy tales, go to hell this is God engineering  
This is a Hail Mary pass, y'all interfering  
He without sin shall cast the first stone  
So y'all check in the mirror, double check your appearance  
Bitch I said I was amazing  
Not that I'm a Mason  
It's amazing that I made it through the maze that I was in  
Lord forgive me I never would've made it without sin  
Holy Water, my face in the basin  
Diamonds in my rosary shows he forgave him  
Bitch I'm red hot, I'm on my third six but the devil, I'm not  
My Jesus piece flooded but thou shall not covet  
Keep your eyes off my cupboard

I'm a bad motherfucker, it's Hov just say you love it

If I ever die, never let it be said I didn't win

Never, never say

Never say Legend didn't go in (Imma go in)

I just wanna die on top of the world

Makin' love to my favorite girl

Makin' beautiful music, we makin' a movie

We knew we was born to do it
