

Christmas With You

Rick Springfield

This night, Christmas seems so far away
Somewhere, are you missing me?
I'm wishing and watching
A star and I pray
To live in a world where we all can be free

I'd fly straight to your arms
And never more roam
My spirit is aching,
I want to come home... to you

So I pray to heaven sweet mother and child
That my only wish will come true
I'd give anything just to see you again
And to have this Christmas With You

Here in the distance
Does God hear me say?
Carry me home to you
The world that I love
Is so far away
And you know my heart is true

The road that I traveled
That led me to here
Will lead me back home
And lay me down near....to you

So I pray to heaven sweet mother and child
That my only wish will come true
I'd give anything just to see you again
And to have this Christmas With You

To spend this Christmas with you
I want this Christmas with you
